GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

CALCUTTA, THE 25TH APRIL 1924.

RESOLUTION No. 2400M.

READ—

Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during the year 1922-23.

1. **Number of municipalities.**—The number of municipalities rose from 116 to 117 owing to the establishment of a municipality at Rajbari in the district of Faridpur. The boundary of the Khulna municipality was extended so as to include the whole of the Khulna Railway yard of which only a portion was hitherto included. There was no alteration in the boundary of any other municipality. The name of the "Rampur Boalia" municipality has been changed to "Rajshahi" municipality.

12. Conservancy.—The total conservancy charges during the year amounted to Rs. 21 lakhs which was about Rs. 5 lakhs in excess of the receipts from latrine fees.

The sewerage scheme for Dacca was in progress and that for the Titagarh municipality was sanctioned after the close of the year. The Kamarhati and Bhatpara sewerage schemes were under consideration while that for Naihati was held in abeyance for want of funds.

13. Public Health.—The Minister observes with satisfaction that the municipalities have been taking an increasing interest in matters relating to Public Health. Measures for the improvement of sanitation were taken up in many towns by filling up, cleansing or disinfecting insanitary tanks, ditches and *dobas* and removing jungles and noxious vegetation. Notices were also issued on the owners of insanitary tanks requiring them to have these filled up or re-excavated. In Maniktola alone the owners were persuaded to fill up no less than 26 tanks. In Cossipur-Chitpur 22 insanitary tanks were filled up by their owners. In Baranagar two tanks were filled up and four were re-excavated. In Shergpur 10 insanitary ditches were filled up and four tanks were re-excavated by their owners. In Murshidabad all municipal wells were dewatered and cleared of silt. The municipality also completed the construction of the Gobardhan Nullah drain with a Government contribution of Rs. 2,000. In Bhatpara about 40 bighas of the Kamarhati bustee was raised and the filling up of borrow-pits in about four bighas of land was in progress. In Brahmanbaria an insanitary plot of land was acquired and improved by filling up ditches and drains and by excavating two tanks.

Preventive measures were undertaken by a large number of municipalities to check the spread of epidemics. Medicines and disinfectants were freely distributed and special doctors were appointed where necessary. Unwholesome food-stuffs were either destroyed or removed from the local bazars, and persons selling such articles were prosecuted. The Baranagar municipality instituted 35 prosecutions under section 6 of the Bengal Food Adulteration Act, all of which resulted in conviction. In Jessore the Sanitary Inspector regularly inspected food-stuffs and detected some cases of adulterated ghee. Four prosecutions were started which ended in conviction. In the Kotechandpur municipality the sale of confectionary articles and fish was controlled under the supervision of the Municipal Health Officer. At Dacca a considerable quantity of unwholesome food-stuffs was destroyed. Some of the municipalities arranged lantern lectures and distributed health leaflets throughout their areas for the purpose of educating the people on sanitation and public health.

Effective steps were taken to prevent the spread of cholera which broke out in several municipalities. In the district of Bankura all the municipalities followed the instructions issued by the Director of Public Health on the subject. When an outbreak occurred people were warned against using the water of suspected tanks and wells. Other tanks were guarded against pollution. In Bankura and Vishnupur a stock of disinfectants was kept for free distribution. The Bankura municipality treated the indigent cholera patients free of charge.

In the Murshidabad municipality public and private wells were periodically disinfected with permanganate of potash and chlorogen, and public drains were regularly flushed with phenyle and chloride of lime. At Khulna, during a widespread epidemic of cholera, the town was saved from contamination by timely measures of prevention, such as disinfections of tanks and houses, and the distribution of health leaflets. Small-pox broke out in epidemic form at Berhampore and Rajshahi, but timely action of the Commissioners prevented any serious extension of the epidemics.

Stringent measures were taken up by a large number of municipalities to vaccinate and re-vaccinate children and primary and secondary vaccinations were in most cases given free of charge. Many of the municipalities employed permanent vaccinators for the purpose.

The intensity of malarial fever was checked in many municipalities by filling up and disinfecting insanitary tanks, etc. As an anti-malarial measure quinine and cinchona febrifuge were also freely distributed by many municipalities. Influenza tabloids were also distributed free to the poor by many municipalities.

Except for comparatively slight outbreaks of relapsing fever, the town of Darjeeling was free from epidemic diseases. Influenza became endemic and was responsible for one-seventh of the total mortality. Serious overcrowding and lack of sanitary dwellings in certain areas of the town gave rise to a high percentage of deaths from tubercular disease, and phthisis accounted for 14·3 per cent. of the total mortality. Except for a short-lived outbreak of influenza at the beginning of the year, the health of the town of Kurseong was, on the whole, fairly good.

In Chittagong and Barisal there were no Health Officers and the public health work was managed by the Sanitary Inspectors; the appointment of Health Officers, which is a statutory obligation, was insisted upon the Municipal Commissioners. At Berhampore a Health Officer was appointed towards the close of the year.

By-laws were framed by a number of municipalities for the eradication of the water-hyacinth, and notices under section 200 of the Bengal Municipal Act were issued by some of them for the removal of this pest from tanks and waterways.

14. Public Works.—The percentage of the outlay on public works to the total expenditure varied in the smaller towns from 1·3 in Katwa to 52·08 in Kharar and in larger municipalities from 4·6 in Serampore to 40·8 in the South Suburban municipality.

The Baranagar municipality expended Rs. 22,894 in the construction of its Office building in a part of which a local library is proposed to be located.

15. Loans.—Loans amounting to Rs. 1,35,001 were granted to five municipalities, viz., Burdwan (Rs. 30,000), Raniganj (Rs. 50,000), Howrah (Rs. 36,334), Dacca (Rs. 15,000), and Faridpur (Rs. 3,667). Altogether 43 municipalities were in debt to Government, their total liabilities amounting to more than Rs. 39 lakhs. South Suburban, Birnagar and Bhola fully liquidated their loans.

16. Audit of Accounts and Embezzlements.—The accounts of almost all municipalities except Gobardanga were audited during the year. Embezzlement or misappropriation of municipal money occurred in Bankura, Hooghly-Chinsura, Maniktola and Baraset. The amounts misappropriated, which are not reported in all cases, were, however, realised from the culprits and the officers concerned were dismissed. The longstanding question of embezzlement of hackney-carriage fees of the Rajshahi municipality, which dates back to 1919, was brought to a final decision after the close of the year with the result that the hackney-carriage inspector was discharged and the officiating tax daroga was transferred to a less responsible post.

The municipal authorities of Comilla took prompt and suitable action in remedying the defects and irregularities pointed out by the Examiner of Local Accounts. Unfortunately, however, little attention is generally paid by municipalities to audit reports. The Minister takes this opportunity of pointing out to municipal bodies the fact that these audits are intended for the assistance of the local authorities themselves and that specific defects and irregularities are brought to light not in a spirit of captious criticism, but with a view to suggesting necessary steps being taken for having them remedied.

17. General Remarks—Burdwan Division: Howrah.—The total ordinary income of the municipality fell from Rs. 15,99,554 to Rs. 15,92,551. The decrease is mainly attributed to the fall of receipt under the Fire Brigade Act and to the non-receipt of any contribution from the public for any improvement work. Expenditure rose from Rs. 12,62,192 to Rs. 14,00,146 mainly on account of increased outlay under the heads "Water Supply," "Roads" and "Conservancy." There was a revision of assessment in wards 4 and 8. The current demand on account of municipal taxes rose from Rs. 14,91,245 to Rs. 16,70,330. The financial position of the municipality has improved within recent years.

The duties of cleansing the roads, drains and privies in the town was, as before, vested in the Ward Committees. Both the Chairman and the Commissioner of the Division complain of their inadequate supervision and of want of sympathy and co-ordination with the central municipal authorities. The question of the disposal of street sweepings is getting more acute year by year owing to the difficulty in finding dumping grounds. The watering arrangement of the town has been greatly improved; in addition to 21 road-watering carts, two road-watering lorries were purchased.

The expenditure under "Public instruction" shows a slight falling off. The scheme prepared by Mr. Biss for the advancement and extension of primary education could not be taken up as it involved the imposition of additional taxation. The Municipal Commissioners, however, decided to take up four of the existing primary schools and to make education free in them.

The health of the town has improved during the last three years, the birth-rate is steadily increasing, the figures for the last 3 years being 20·20, 22·06 and 25·48 per mille, respectively, while the number of deaths has gradually decreased since 1920-21. There were no epidemic diseases during the year. To remove infantile mortality four qualified midwives were appointed under the supervision of the Health Officer.

The municipality of Burdwan was administered with great efficiency. A scheme for replacing the worn out engines and boilers at an estimated cost of Rs. 1,30,000 was taken up during the year and considerable progress made. Kalna was at one time notoriously unhealthy, but during the last 10 or 15 years it has improved in respect of malaria, though typhoid and kala-azar have become prevalent. The system of treatment of kala-azar by antimony injections, which was introduced by Dr. Muir in the Scottish Mission Hospital, was continued. The success obtained from this method of treatment has led to an influx of patients from other places, and it is to this circumstance that the Municipal Commissioners attribute the spread of the disease among the permanent residents of the town. The crying need of the town of Katwa is filtered water, but the municipality is making no provision for a supply. The first elected Municipal Board of Asansol has been formed and it is hoped that the affairs of this municipality will now rapidly improve. The finances of the Midnapore municipality continued to be unsatisfactory. The water-works scheme of the municipality was hung up for inadequacy of funds, but steps are now being taken for completing an important part of the scheme. At Chandrakona dissension and party feeling prevented any useful work being done.

The District Magistrate of Hooghly is of opinion that the two largest municipalities, viz., the Hooghly-Chinsura and Serampore are the worst managed. The finances of the former show some slight improvement, but the outstanding balance being still so high as Rs. 21,000, the improvement is purely nominal and is unaccompanied by better work in other departments.

of the municipality. For want of continuous supervision over the collecting staff, collections are neglected and arrears allowed to accumulate. Other branches of administration have also suffered and the people are reported to be growing dissatisfied with the present management of the municipality. The Serampore municipality was faced with bankruptcy which has been averted by the recent assessment which will add 25 per cent. to its income. Party faction was noticeable in Kotrung. Much improvement has been effected in the Bansberia municipality by the construction of a mill in Ward No. I and by the clearance of jungle by another mill in Ward No. III. The general health and sanitation of Baidyabati has improved, but the municipality is notorious for party factions. The collections in Campdany were very satisfactory.

18. Presidency Division.—Mr. Prentice, the late-Magistrate of the 24-Parganas, remarks as follows :—

“ There continue to be too many municipalities whose administration falls far below what it ought to be. Panihati, Tollygunge, Rajpur, Basirhat, Joynagar and Baduria are all bad, and there are some others which might easily be better than they are. In places like Joynagar the Municipal Commissioners decline to enforce any of the much-needed improvements because private interests will thereby be affected and zamindars and others are not ashamed to derive income from markets which are insanitary. The scheme for a railway market at Kanchrapara still hangs fire and no progress has been made with the project for a municipal market in Bhatpara. No great progress appears anywhere in jungle-cutting or filling up insanitary *dobas* and there is a general want of vital civic co-operation. Rate-payers do not keep their own holdings clear.”

The municipal administration in the district of Murshidabad was fairly well managed as far as municipal funds permitted, and the health of municipal towns was generally good. The standards of collection in the Khulna municipality were again high, and freedom from epidemic disease enjoyed by the town was attributed to good administration. On the other hand, the work of the small municipality at Debhata was extremely unsatisfactory. When the District Magistrate inspected it on the 23rd March 1923, it had carried out only three-eighths of the budgeted expenditure, had spent only one rupee out of a budgeted capital outlay on drains of Rs. 100, and had been without a sweeper throughout January and February. Its standards, traditionally low, were further depressed during the year by local class feuds. A general election was set aside, and a second election which was held resulted in the unseating of the *bhadralog* class.

The Commissioner of the Division observes :—“ The few good municipalities do excellent work considering the very limited means at their disposal, but there are a large number which have in no way fulfilled the hopes of their founders. In many places the Commissioners have yet to learn the great responsibility involved by their position not only in spending carefully the money for the ratepayers but also in realising their dues promptly.”

19. Dacca Division.—The state of affairs in the Dacca municipality is unsatisfactory. The latrine service is indifferent, the water-supply is deficient, and the conditions of the roads leave much to be desired. The revaluation was long overdue and the successive bodies of Commissioners who omitted to have the town revalued are partly to blame for the present discomforts of the ratepayers. The present Commissioners have at last made a general revaluation. In this connection the Divisional Commissioner observes as follows :—

“ The Municipal Commissioners of Dacca are to be congratulated on reducing the outstanding balance of taxes from Rs. 51,524 to Rs. 24,010 and on

**RESOLUTION ON THE REPORT ON THE OPERATIONS OF THE DEPARTMENT
OF AGRICULTURE FOR THE YEAR 1922-23.**

GOVERNMENT OF BENGAL.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Agriculture.

DARJEELING, THE 30TH APRIL 1924.

RESOLUTION—No. 137T.—A.I.

Minister in charge : The Hon'ble Hadji Mr. Abdul Karim Abu Ahmed Khan Ghuznavi.

READ—

The Report of the Department of Agriculture, Bengal, for the year 1922-23.

Mr. G. Evans held charge of the department till 16th October 1922, when he went on leave preparatory to retirement. Mr. R. S. Finlow officiated as Director for the rest of the year. Mr. K. McLean, Deputy Director of Agriculture, was appointed to act as Fibre Expert to the Government of Bengal. Mr. F. Smith, Deputy Director of Agriculture, proceeded on leave for fifteen months from the 27th November 1922. Two new posts of Deputy Director of Agriculture were sanctioned by the Secretary of State at the close of the preceding year, but it was not possible to fill them permanently for want of suitable recruits. It has since been decided not to fill the posts for the present as, until the number of farms in working order increases, the staff of three Deputy Directors appears to be sufficient for the needs of the department. Mr. M. Carbery continued as Agricultural Chemist, and Messrs. G. P. Hector and Dwijadas Datta as first and second Economic Botanists, respectively, throughout the year.

2. Although the decisions of Government on the recommendations of the Bengal Retrenchment Committee relating to the Agricultural Department were taken after the close of the year under report, it is necessary to indicate the policy underlying these decisions to remove misapprehension. As regards the demonstration and propaganda branch of work of the department for which a large subordinate staff of District Agricultural Officers and demonstrators were employed under the Superintendents of Agriculture in charge of divisions, it has been definitely decided that the work of demonstration should radiate from the district agricultural farms where the necessary technical staff of District Agricultural Officers and demonstrators will exist, whilst propaganda, so far as it is non-technical, should be carried out with the assistance of the District Officer and his staff, the staff of the Co-operative department and the Agricultural Associations. The district and departmental staff will in the course of their ordinary duties in the mufassal draw the attention of the cultivators to the improvements effected by the agricultural department and induce them to get into touch with the farms. It will then rest with the technical staff at the farms to demonstrate the improvements of crops, seeds, manures, implements etc.

Next to research and the research stations, the district agricultural farms, therefore, occupy an important place in the organisation of the department. Whilst, however, the functions of these farms must include experiment as well as demonstration, it is also clear that they are to convince people, some portion of each of them must be set aside for the purpose of bringing home to the public the economic proposition that the agricultural improvements recommended by the department can be made to pay. A definite effect has accordingly been taken by the department.

As a corollary to the policy of concentrating the activities of the department around the farms the Government of Bengal in the Ministry of Agriculture and Public Works have also accepted the principle of the maintenance of

and the distribution of seeds are matters not of agriculture but of organisation. Orders have accordingly been issued for the abolition of seed stores outside the farms.

3. Of the 19 Bengal students in the second year class of the Sabour Agricultural College which closed at the end of the session 1922-23, 18 passed the final examination. The number of students on the roll in each of the Secondary Agricultural Schools at Dacca and Chinsura was 16 in the first year class, while there were 20 and 17 students on the roll in the second year class in the respective schools. Eleven students passed the final examination in the Dacca School and 14 in the Chinsura School. The Government of Bengal (Ministry of Agriculture and Public Works) have since on the recommendation of the Bengal Retrenchment Committee decided to close the Chinsura School, since it appears that full advantage has not been taken of the facilities offered by the school.

The scheme for agricultural education referred to in the resolution recorded on the report for the year 1921-22 was not proceeded with as there was no likelihood of funds being obtainable. For similar reasons the proposed Agricultural Institute at Dacca was not proceeded with. This is not to say that the Agricultural Department and the Government of Bengal have lost sight of the importance of agricultural education either in its more elementary form as at schools such as the report mentions as existing in Manarpur (Burdwan) and Durgapur (Chittagong) or Dacca, or in its more advanced form as contemplated in the proposed Agricultural Institute at Dacca, and it is to be hoped that it will be possible to take up these questions in the near future. Mere theoretical training will not commend itself and any scheme of agricultural education to prove acceptable must be such as to direct students back to the land and the practical pursuit of a profession on lines which it will first be proved are profitable.

4. Satisfactory progress continued to be made in the research side of the department. The evolution of improved races of jute and the reaffirmation of the values of previous discoveries in regard to jute, some of which had begun to be challenged, naturally received special attention, but investigations were also carried out in hemp, flax and other fibres. At present D. 154 is the standard departmental race of *C. capsularis* and the best yielder. Two other races D. 27 and 39X, a hybrid, are also under trial. Over 600 single plant cultures of *C. capsularis* were made during the year with the object of improving on D. 154. Work on *chlorosis* in jute in collaboration with the Economic Botanist was continued. Results obtained by crossing *chlorotic* with non-*chlorotic* races of *C. capsularis* have so far indicated that the *chlorotic* tendency is more extensively inherited through the female than the male plant.

The question of the superiority of departmental races of jute in fibre and spinning qualities over local races came under discussion with the trade during the year. Arrangements have been made for the conduct during the present year of a series of field tests in the Eastern and Northern Bengal districts with the departmental races of R. 85 and D. 154 and *Funduk*, a variety which is believed to be of a very high quality by the trade.

The Bengal Chamber of Commerce has nominated a committee to co-operate with the department in these matters and to advise it in regard to the requirements of the trade. The Government of Bengal (Ministry of Agriculture and Public Works) are gratified to notice the interest which the departmental races of jute have roused, and will await the result of the field experiments undertaken by the department.

5. The report of the Committee appointed to devise ways and means to eradicate the water hyacinth was received and considered during the year. The members of the committee were unable to come to a unanimous conclusion on the important question of the measures to be taken for the eradication of the weed. They did, however, reach a unanimity about the efficacy of the spray, the use of which was given by its inventor, Mr. T. S. Griffiths. The experiments conducted on a small scale at Dacca under the supervision of the experts of the department afforded grounds for the belief that the fluid used by Mr. Griffiths, although harmless to human

beings and animals, resulted on application in the destruction of the water-hyacinth. As the Government of Bengal were of opinion that no possibility of securing an efficacious means of dealing with the pest should be neglected they decided to follow up their previous experiments and to endeavour to obtain some conclusive result. Communications were accordingly addressed to Mr. Griffiths as a result of which he offered the use of his spray to this Government for a period of three years for a payment of £1,500 with the option to purchase all rights in it in Bengal for a further payment of £6,000 at the end of three years if this Government were fully satisfied with their experiments during that period. The Government of Bengal (Ministry of Agriculture and Public Works) are satisfied that the offer is reasonable and have accepted it.

5. As usual, rice continued to receive particular attention in the Botanical Section, though minor investigations were also carried out in cotton, pulses and oil seeds. Varietal tests in a record season at Dacca and in an unfavourable season at Chinsura have again proved the superiority of *Indrasail* and *Dudshar* paddy, whilst *Kataktara* is still without a rival in Eastern and Northern Bengal as a high land broadcast *Aus* rice.

Amongst *Rabi* crops a number of pure races of *Matikalai* with promising qualities have been selected.

The Second Economic Botanist is in charge of the investigations into cotton, deep-water paddy, pulses and oil seeds.

The cotton survey of the province is still being conducted. It is estimated that the total area under cotton in Bengal is 60,000 acres, of which 5,000 acres are ordinary cotton and the remainder is *Comillas*. It is interesting, even if it may not prove to be important, that types of cotton answering Roxburgh's description of Dacca muslin cotton have been discovered at Dewa⁴⁴⁷ (Mymensingh) and Rangpur.

6. In the Chemical section special attention was given to sugarcane, date-sugar and tobacco. Although the drought in the early part of the year proved disastrous to the sugarcane crop it was not without its lesson, as it demonstrated the exceptional drought-resisting capacity of the departmental race of *Tanna*. Two other new Coimbatore hybrid races, viz., Madras Nos. C.213 and C.214, have also been found to be good resisters of drought. They also promise to tiller better and to yield a purer juice. Experiments have shown that high glucose content of the juice of sugarcane grown on the red laterite soil of Dacca is due to the soil's deficiency in lime as well as to the lack of moisture which was hitherto believed to be the chief cause.

Manurial experiments with tobacco indicate that groundnut cake and fish manures yield good results.

7. Gratifying progress has been made with the programme of evolving an improved breed of cattle at the cattle-breeding station, Rangpur. The process of selection of cows has resulted in a marked improvement in their yield of milk so that the minimum standard of milk yield per lactation period of 300 days has been raised from 500 lbs. in 1920 to 1,500 lbs. in 1923. To-day the best cows at Rangpur are giving about 4,000 lbs. of milk per lactation. Attention is also being given to producing in larger numbers bulls of good stature and belonging to good milking strain. The object is distribution amongst owners of cows, for it has been proved at Pusa that it is through the sire that the milking strain passes. Selection work on the herd of Sindhi cattle at the Dacca Farm is in progress. The selection of cattle fodder which has an important bearing on the improvement of cattle has also been engaging the attention of the department. Numerous fodder crops, both indigenous and exotic, are being tested with a view to ascertaining their value and giving the public the benefit of the results.

8. During the year an Agricultural Engineer with a special knowledge of irrigation was employed with the object of executing minor irrigation schemes for the improvement of agriculture in the Bankura, Birbhum and Midnapore districts. Apart from schemes under the Bengal Agricultural and Sanitary Improvement Act, 1920, there was a large number of co-operative irrigation schemes in the Bankura and Birbhum districts which called for the special attention of the Agricultural Engineer. Besides irrigation work a number of applications were received for the drainage or re-excavation of water-courses.

rivers and *bheels* under the Bengal Agricultural and Sanitary Improvement Act. It is hoped that if advantage is largely taken of the provisions of the Act much benefit from the sanitary as well as the agricultural point of view will result.

9. As already indicated agricultural associations play an important part as a link between the department and the *raiyats*. They also afford a real test of the interest taken by the public in the welfare of the agricultural population. Noteworthy among these associations are those of Nadia, Birbhum, 24-Parganas, Pabna and Rangpur. Agricultural associations run on co-operative lines have great possibilities and the distinguishing merit of self-help. In Pabna an innovation has been made in the establishment of agricultural co-operative societies with small areas for the demonstration of improvements and the production of seed of departmentally selected crops. A further experiment in collaboration with the co-operative department is the proposed establishment of societies for the purchase and sale of jute seed with the object of developing reliable private agencies for the propagation of improved seed under the expert advice of the Agricultural Department.

10. Mr. P. C. Chaudhury, Deputy Director of Sericulture, Bengal, assisted by two Superintendents was in charge of seed cocoon production during the year. Miss Cleghorn also continued to work at Alipore. The total receipts from the nurseries amounted to Rs. 61,188 against Rs. 59,381 and the expenditure to Rs. 1,81,254 against Rs. 1,62,460 in the preceding year. It is, of course, not to be expected that the receipts should cover all the expenditure, since the object is to revive the industry by popularising disease-free seed. The falling off in receipts is, however, unfortunate. The receipts should go on increasing until the loss to Government becomes very much less than at present. The falling off is attributed to the shortage in cocoon production resulting from abnormal weather conditions such as drought, flood, etc., as well as to the heavy budget curtailment at the end of the year which necessitated the practical abandonment of the *Maghi* programme. Nevertheless, there was a marked advance in placing the work of this section on a sounder basis than before. It has now been definitely decided that in present circumstances hybridization should be abandoned as unlikely to produce good results. Results of manurial experiments too indicate that the yield of leaf is capable of a large increase, and formalin, which is at present used as a disinfectant, is being tentatively replaced by a substance called "E.C." invented by Mr. Hutchinson, the Imperial Bacteriologist. "E. C." has been found to be far more powerful and also less costly than formalin. The multiplication and distribution of disease-free seeds are still the main items in the programme of the Sericultural Department, and the encouragement of selected rearers to produce seeds under departmental supervision is so far shown to be sound. The Bengal Silk Committee was reconstituted at the close of the year so as to secure the representation of the silk trade, both European and Indian, and the cocoon rearers and silk reeler in that body, but so far no meeting of the Committee has taken place.

11. The Hon'ble Minister has much pleasure in acknowledging the services of Mr. Finlow, Officiating Director, for his administration of the department during the year. His acknowledgments are also due to the other members of the department whose services Mr. Finlow has brought to notice. The Minister also takes this opportunity of placing on record his appreciation of the assistance rendered by Mr. G. S. Dutt, I.C.S., and Mr. Perjee Bahadur in the agricultural development of the Bankura

order of the Government of Bengal

(Ministry of Agriculture and Public Works).

RAMPUR BOALIA, the 26th April 1924.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 30th April 1924.

Summary.—The rainfall during the week was generally light almost throughout the Province. Sowings of jute and paddy are proceeding briskly, but more rain is still wanted in places especially in the western districts. Prospects of standing crops are satisfactory. The average price of common rice for the Province has risen by about 0.25 per cent., as compared with that of the previous week.

CIRCULAR ORDER No. 5 of 1924.

CRIMINAL.

It having been brought to the notice of the High Court that considerable inconvenience is caused to the Government Telegraph Check Office, Calcutta, in consequence of clerks attached thereto being summoned from time to time by criminal courts to attend those Courts to produce draft messages and to give evidence in cases in which draft messages are required for examination, the following instructions are issued for the guidance of the subordinate criminal courts:—

(a) Section 95 of the Code of Criminal Procedure lays down the procedure in regard to the production of Post office or Telegraph office records before courts of criminal jurisdiction. Sub-section (3) of section 94 of the Code expressly exempts letters, telegrams and parcels in the custody of the Postal or Telegraph authorities from the operation of sub-sections (1) and (2) of that section and a Court desiring the production of any such letter or telegram must proceed under section 95. The intention of this section appears to be that an officer should be deputed by the court concerned to the office where such letter or telegram may be, and that the Postal or Telegraph authorities should be directed to make over the document to the officer so deputed, who will then be in a position to prove that the document was produced from the custody of the Postal or Telegraph authorities.

(b) The attendance of Telegraph office clerks should be required only if they are in a position to prove the handwriting of the message or otherwise identify the writer or person who handed it in for transmission or to give material evidence on other relevant matters which cannot be proved from other sources.

(SURPLUS STORES.)

Sindia, the 24th April 1924.

RESOLUTION.

The work connected with the disposal of surplus stores on behalf of His Majesty's Government (Disposal and Liquidation Commission) is now being closed down. The work was started in 1919 by the establishment of an organization for the disposal of surplus textile stores, and the organization was expanded from time to time to meet changing requirements, until it eventually comprised a staff which dealt with the disposal not only of textiles but of engineering stores, medical stores, food-stuffs, and numerous other stores of a miscellaneous character. Three main depôts for the sale of stores were established, namely at Bombay, Calcutta and Lahore; each of these depôts was in charge of a Controller of Sales under the authority of the Chief Controller (Surplus Stores); the Controllers of Sales and their staffs were assisted by Sales Committees, composed of non-official gentlemen who assisted the Controllers with their advice in the pricing of the stores, and in the methods of disposal. In regard to textile piece-goods and yarn, Mr. N. B. Saklatwala, C.I.E., of Messrs. Tata Sons, Limited, acted as Honorary Adviser to the Surplus Stores Organization from its commencement in 1919 until April 1922, when the disposal of textiles had so advanced, and the work in which his assistance was required had so diminished, that, on Mr. Saklatwala's own suggestion, he was relieved of his duties. The total sales effected at the three centres realized a sum of over eight crores of rupees.

2. Now that the work has been completed and the depôts have been closed, the Government of India desire to place on record their acknowledgment of the valuable help rendered by the non-official gentlemen, who placed their services at the disposal of Government, and the public spirit with which they devoted so much of their time to the work. They desire in particular to convey their appreciation of the assistance rendered by Mr. Saklatwala in the disposal of textile stores, and by the non-official gentlemen named below who served on the Sales Committees for a prolonged period :—

The Hon'ble Rai Bahadur Ram Saran Dass, C.I.E.		
A. E. Paul, Esq., B.A., A.M.I.C.E.		
Rai Bahadur Milkhi Ram, C.I.E.		
P. Ross-Redding, Esq.	}	
J. Rustonji, Esq.		

They also wish to acknowledge the valuable help rendered by Colonel G. H. Willis, C.I.E., M.V.O., R.E., M.I.M.E., Master of the Mint, Bombay, who was for a long time Chairman of the Sales Committee in that centre.

3. The initial organisation of the operations connected with the sale of surplus stores was effected by Sir Ernest Low, K.C.I.E., who held the office of Chief Controller till January 1921 when he proceeded on leave. The main burden has fallen on his successor Mr. A. H. Ley, C.I.E. The tact, judgment and experience which Mr. Ley brought to his difficult task and his great industry have in the opinion of the Government of India contributed materially to the success of the operations and their expeditious termination.

The Chief Controller (Surplus Stores), in conveying his appreciation of the services of the official staff under his control, has brought to the particular attention of Government the valuable work done by Mr. D. E. Keatinge, one time Controller of Sales, Lahore, Controller of Sales, Calcutta, and lately Deputy Chief Controller (Surplus Stores), and by Mr. P. N. Mukherji, Controller of Surplus Stores Accounts. The Government of India have noticed with pleasure his appreciation of their services.

ORDERED that a copy of the Resolution be forwarded to the Financial Adviser, Secretary to the Government, the Auditor-General, the Military Accountant-General and the Accountant-General, Central Revenues; and that a copy be published in the Supplement to the Gazette for general information.

Also that a copy of the Resolution be forwarded to all the gentlemen mentioned in the list.

MEDICAL COLLEGE OF BENGAL.

Rules for the guidance of students seeking admission.

1. Two classes of students are admitted for study in the College—

(a) "Regular," or those who enter for the full University course.

The admission to this class is restricted to students (male and female) who are natives of, or whose parents are domiciled in, the area within the territorial limits of the Calcutta University, and the provinces of Bihar and Orissa, Assam and Central Provinces, and those who come out of the Dacca or the Rangoon University as provided for in rule 5.

(b) "Military Class" (only students of European or Eurasian parentage are admitted to this class). (See separate prospectus for Military students.)

The admission to this class is regulated by the Director-General, Indian Medical Service.

2. The minimum preliminary qualification for admission to the (a) "Regular Class" is the Pass certificate of the I. Sc. Examination of the Calcutta University with Physics and Chemistry or any Examination equivalent to it.

3. The session commences on the 15th June.

4. All new students must apply for admission to the Principal, Medical College, Calcutta, in the prescribed form available in this office, on or before the 25th May, except in the case of Biharis, Uriyas, Chota Nagpuris and Assamese students, who should apply to the Inspectors-General of Civil Hospitals of their respective provinces for admission within such date as the latter may prescribe. Students who come out of the Dacca and the Rangoon Universities and the candidates from the Central Provinces should apply to the Director of Public Instruction of the respective provinces.

Selected candidates must pay the following fees within the time prescribed by the Principal, failing which their names will be struck off the selected list :—

	Rs. A.			
Admission fee	20 0
Fees for Summer term	62 8
Athletic Club fee	2 0
Total	84 8

5. The number of Regular students to be admitted each year is generally 120, but the Principal may, at his discretion, increase or decrease this number. Preference for admission will usually be given to candidates who have superior qualifications, but the final selection lies entirely with the Principal.

One-fourth of the total number to be admitted shall be Muhammadans. Twelve candidates will be nominated by the Inspector-General of Civil Hospitals of Bihar and Orissa, one by the Government of Central Provinces and six candidates by the Inspector-General of Civil Hospitals of Assam, six candidates of the Dacca University by the Director of Public Instruction, Bengal, and two of the Rangoon University by the Director of Public Instruction, Burma. These candidates must possess the qualifications mentioned in rule 2(a). In addition, the Bihar and Orissa Government will nominate six scholars, who must have passed the I. Sc. Examination with Physics and Chemistry. These nominations must reach the Principal, Medical College, Calcutta, before the 10th June in each year, failing which the Principal will fill up vacancies with local candidates.

6. (a) Female students will be admitted to the College provided they possess the requisite preliminary qualification, and provided there is a vacancy in the Surnomoyee Hostel in which all female students must reside.

(b) Female students belonging to provinces other than Bengal will have to pay rents for their seats in the Surnomoyee Hostel.

7. Failed students must apply for admission and pay fee within a week from the date of the publication of their results, otherwise their prior claim lapses.

8. All Regular students must pay an annual fee of Rs. 125 in two instalments, viz., Rs. 62-8 for the Summer term and Rs. 62-8 for the winter term. They must also pay the annual Athletic Club fee of Rs. 2 along with their fees for Summer term. Fees once paid cannot be refunded.

9. The fees for each term are to be paid in one instalment. Except in the case of new students, the fees for Summer term are due on the 15th June and those for the Winter term on the 1st November, and must be paid on those dates or on such subsequent dates as the Principal may direct, after which a daily fine of annas 4 will be levied along with the fee in each case of default.

10. Female students are not liable to pay the Athletic Club fee.
11. Students relegated to a further course of study after their failure at the Preliminary Scientific M. B. and at the First M. B. Examinations shall pay Rs. 80 for the whole session in one instalment within the time prescribed above.
12. Students who fail at the Final M. B. Examination shall pay fees for the whole session at the following rates in one instalment by the 1st June :—

	Rs.
For one subject	25
For two subjects	50
For three or more subjects	75

13. Students taking up subjects outside the curriculum of the year in which they are studying shall pay Rs. 30 for each subject, including lectures and practical classes.

14. The fees for Casual students or for certificates issued to Regular students leaving the College before completing their study, or for those issued to Military students, shall be Rs. 40 per each course of lectures and practical classes and Rs. 30 for every three months of hospital practice.

15. In calculating the sum to be paid under rule 14 by a Regular student, the amount of College fees paid by him, or in the case of a student enjoying a stipendiary scholarship and free tuition, the amount which would have been paid by him had he been a paying student shall be deducted.

16. The fees payable by a Muhammadan student requiring certificates in the same way will be calculated on the same principle, i.e., he will be allowed a deduction for the full annual fee, half of which has been paid by himself and half by the Mohsin Fund.

17. Students of the Military class requiring certificates in the same way will be required to pay the rate of fees laid down in paragraph 14 for the full curriculum or for such portion as they have attended. No deduction will be made in this case as they are not free students in the sense in which that term is defined in Bengal Government Resolution (Education) No. 601 of the 7th December 1880.

18. The fee for post-graduate students undergoing a course of training in the Pathological, Bacteriological, Physiological or Chemical Laboratory is Rs. 90 for a period not exceeding six months.

19. Holders of scholarships awarded by the Government of Bengal are not required to pay the annual fee of Rs. 125 for the year in which they hold such scholarships. All holders of other scholarships, whether granted by other Local Governments, local bodies, or Dufferin Fund, shall pay the same fees as Regular students.

MAINAMATI SURVEY SCHOOL.**(Post-office Mainamati, district Tippera.)****Admission Rules (Provisional).**

THE Mainamati Survey School is a Government institution under the administrative control of the Director of Industries, Bengal. It is situated on the Mainamati Hill, four miles from the Comilla railway station in the Tippera district.

2. The Principal is charged with the general control of the school and the maintenance of discipline.

3. The full course of instruction extends over two years, either the full course may be taken, or the first year's course only. At present the session for the first year's course begins from the 1st August terminating on the 31st July of the following year.

4. The session for the second year's course extends without a break from the first Monday in November to the middle of September of the following year.

5. It is a residential institution and the students are required to reside in the school premises and must conform to the rules sanctioned by Government. Students may live with their parents or with approved guardians with the special permission of the Principal. The messing charges for Hindu students average about Rs. 10 per month. Owing to the paucity of Muhammadan students they are allowed to make their own messing arrangements.

(a) A sound knowledge of elementary arithmetic.

(b) Ability to write simple English and vernacular.

(c) Fitness for arduous field-work.

(d) A certificate of character from the head of the institution where he was last educated.

NOTE.—Preference will be given to those who have passed the Matriculation Examination or received higher education.

After that date no payment shall be taken, unless accompanied by a fine of Re. 1 for every three days' delay. If the payment is not made during the month for which it is due, the defaulting student's name shall be struck off the school roll, and he will not be re-admitted until he has paid all arrears, together with any fines which may be due from him and a re-admission fee of Rs. 5.

14. Leave for short periods not ordinarily exceeding ten days in a year may be granted to students by the Principal in special cases. Students present at the school but unable to do any work on medical ground are excused from attending the class on the recommendation of the resident medical officer but frequent leave on petty excuses may render a student medically unfit for the course and his name may be struck off the roll.

STATEMENT OF OBJECTS AND REASONS.

The Court-fees Act, 1870, has been in force for over fifty years and there are anomalies and defects in it, which are a source of conflicting decisions and inconvenience to litigants. Accordingly in August, 1916, the Government of India addressed the Local Governments, proposing certain amendments in the Act and asking for suggestions. No immediate action however was taken by the Government on the opinions received.

In 1920, under the Devolution Rules, "Judicial Stamps" became a reserved subject; and in 1922 and 1923 eight local Legislatures amended the Schedules to the Act and also certain provisions in the Act itself, in order to raise additional revenue. The need for an amending Act in the Indian Legislature to deal with the procedure, principle and methods of realising fees has, however, not decreased, but on the contrary has become the more urgent as it is desirable as far as possible to co-ordinate the law prevailing in the different Provinces. The Government of India therefore again addressed the Local Governments in 1923 and received further suggestions from them.

In accordance with the replies received, it was decided to proceed with legislation on the abovementioned lines in the Indian Legislature. The object of the Bill is to revise the whole Act and bring it up to date. Its object is not to increase the provincial revenue from court fees, though possibly the removal of some of the existing anomalies may secure some slight increase. Several amendments which have been recently passed in the Madras Legislative Council and other local Legislatures are incorporated with slight alterations in the Bill.

The First and Second Schedules to the Act have not been amended, except in so far as they deal with Probate, Letters of Administration and Succession Certificates; and paragraph V of section 7, which is concerned with the valuation of immoveable property, has also, except in one comparatively unimportant particular, been left untouched. The main alterations proposed in the Bill are extensive changes in the remaining provisions of section 7 and the entire redrafting of the existing Chapter III A, which deals with Probates and Letters of Administration. It is also proposed to equalise the fees on application for Probates, Letters of Administration and Succession Certificates throughout India. The main provisions are explained in the following Notes on Clauses:—

Notes on Clauses.

Clause 2.—The definition of “Chief Controlling Revenue authority” is brought up to date.

“Memorandum of appeal” is defined as including a memorandum of cross-objection. This follows section 192 of Madras Act V of 1922, and is designed to meet the hardship mentioned in *Lakhan Singh versus Ram Kishan* (I. L. R., 4 All., p. 93).

“Suit” is defined as including an appeal. This is not intended to change the law on the subject, but to confirm the view adopted in *Sangat Baksh Singh versus Rawat Dileep Baksh* (25 Oudh Cases, p. 30) and *Dyal Singh versus Ram Rakha* (15 Indian Cases, p. 463). There are still conflicting decisions on the point.

Clause 2 (a).—The amendment is designed to show that, in an appeal by a defendant, court-fee is payable on interest from the date of the presentation of the plaint to the date of the decree (and not beyond that date), and in an appeal by the plaintiff, on any additional interest claimed by him. There are conflicting decisions in respect of the words “amount claimed”.

Clause 7 (b) and first part of clause 7 (c).—It is agreed that paragraph iv of section 7, which deals with cases in which the plaintiff is allowed to value the relief sought, is very unsatisfactory. The provisions in these clauses include:—

(a) one based on that which was contained in section 2 (b) of Bombay Act I of 1922, namely, that relief should be valued at not less than Rs. 200 in all cases falling under this paragraph;

(b) another based on that contained in section 6 of Madras Act V of 1922, namely, that, in suits for a declaratory decree where consequential relief is prayed and which relate to immoveable property, the fee shall be calculated on not less than one-half the computed value of the property;

(c) another that in a suit for accounts, where the decree is in accordance with the plaint, the defendant, if he appeals, shall not be allowed to put his own valuation on the memorandum of appeal. This follows the decision in *Dhupati versus Perindevanma* (I. L. R. 39 Mad., p. 725), as opposed to the ruling of the Allahabad High Court in *Kanhaiya versus Seth Dhan* (I. L. R. 44 All., p. 542); and

other indicating that sub-clause (b) of paragraph iv relates to a case in which some person applying for the partition of joint family property, etc., is not a further paragraph iv, included in clause 7 (c), it is provided that, if a person to be a co-parcener is denied, the person shall pay fee on the share as follows generally the lines of the rulings of the Calcutta and Allahabad as opposed to the rulings of the Madras High Court.

Part of clause 7 (c). This deals with suits for the cancellation of decrees. In such cases will be based on the value of the property in question. This provision follows section 7 of Madras Act V of 1922.

Clause 7 (d).—This amendment deals with suits for pre-emption, and is intended to equalise the fee in the case of “Daryao Singh versus Bharat Singh” (I. L. R. 32 Cal.). The intention is that the fee should be computed on the market-value of the property, when, for instance, the property is subject to a heavy mortgage and the suit is only for the equity of redemption.

Clause 7 (f).—Paragraph viii has been redrafted so as to indicate that in suits to set aside an attachment and also in suits under Rule 63 of Order XXI in the Code of Civil Procedure, a fee should be paid according to the value of the attached property or the amount for which the property was attached, whichever is less. (Cf. the Privy Council ruling I. L. R. 35 Cal., p. 292.)

Clause 7(g).—It is generally recognised that a change is necessary in paragraph ix of section 7, which deals with suits for redemption and foreclosure. Amendments have been made accordingly both by the United Provinces and the Central Provinces Legislative Councils. The provision in the Bill is based on section 4 of the Central Provinces Act I of 1923. A fee computed merely on the principal money is quite inadequate in suits for foreclosure.

Clause 8.—The intention of this clause is that the amount at which the plaintiff may value his relief shall not be arbitrary, and that the Court in which the suit or memorandum of appeal is filed shall be able at any stage of the suit or appeal, as the case may be, to check the valuation and to direct that additional fee shall be paid, failing which the part of the suit in question shall be dismissed. There have been conflicting rulings in respect of the power of the Courts to check the valuation and to demand additional fees.

Clause 9.—It has been found by experience that very exorbitant claims are made in references in land acquisition cases, because no fee is charged on such references. The proposal in this clause is designed merely to discourage exorbitant claims. No fee will be charged except in cases where the amount claimed exceeds double the amount subsequently awarded by the Court. The provision regarding appeals in such cases remains unchanged. The proposal in this clause involves the amendment of paragraph xxii of section 19.

Clause 11.—Section 11 has been redrafted in order to increase its scope, and to show that the fee is payable on the additional mesne profits found, for example, in a final decree under rule 12 (2) of Order XX in the Code of Civil Procedure. The second paragraph of section 11, which is obsolete, is omitted.

Clause 12.—This amendment makes it clear that the classification in section (1) of section 12 does not apply to cases in which the classification of the suit is not correct. There have been conflicting rulings on this point.

Clause 13.—Section 17 regarding multifarious suits has occasioned considerable difficulty, especially in respect of the words "distinct subjects." The section has been redrafted in order to deal with this difficulty. For "distinct subjects" the words "separate and distinct causes of action" have been substituted.

By *Clause 14* a new Chapter IV, regarding Probates and Letters of Administration, has been inserted in the Act in the place of the existing Chapter III A, which has proved to be unsatisfactory. The new Chapter is based on the existing Chapter, but the order of the sections has been changed, and several additions have been made, particularly in new sections 19C, 19F and 19G. The existing provisions were introduced partly in 1875 and partly in 1899, and the two parts of the Chapter do not appear to have been properly co-ordinated.

The more important changes made are mentioned briefly below :—

New section 19A is based on the first part of existing section 19H. Except, in regard to the penalty under new section 19G, action is to be taken in this Chapter by the Collector and not by the Chief Controlling Revenue authority. It is provided, therefore, in new section 19A that the High Court (as well as other Courts) shall send intimation direct to the Collector.

New section 19B enables the Collector to summon witnesses and compel the production of documents, as required.

New section 19C describes the circumstances in which probate may be granted. It provides for the grant of probate in certain cases before the fee on the net value of the estate has been actually paid; and also lays down that no fee shall be paid on trust property. The fee is to be calculated on the value of the estate of a deceased person at the time of his death, except when the application for probate is made more than a year after the death of the deceased, in which case it is to be calculated on the value at the date of application owing to the difficulty of ascertaining the value at the date of death. In view of the above concession, six per cent. simple interest on such fee is also to be paid in all cases from the date of death to the date of payment. The section further

lays down that a member of a joint Hindu family under Mitakshara Law, who is a co-sharer in the estate of a deceased co-parcener, must pay fee on Rs. A. probate in respect of the estate of a deceased co-parcener, must pay fee on Rs. A. the deceased; there have been conflicting rulings on this point, and the provision is generally accepted by the members of the Hindu community consulted. provision in the section is that full deductions under Annexure B from the estate shall be made only when the application is for probate of the whole estate.

New section 19D is based on the latter part of existing section 19H; by that, instead of the Collector moving the Court, the applicant himself may, if he move the Court to make an inquiry as to the value of the estate. Sub-section that the Court may pass orders regarding the costs of an inquiry.

New section 19E is the existing section 19C.

New sections 19F and 19G correspond fairly closely with existing sections 19E. They deal with the cases where the valuation on which fee has been paid afterwards found to be incorrect. Similar provisions have been made for the two cases, namely, the case where too much was paid at first and the case where too little was paid at first. The stringency of the law contained in the existing section 19E has been considerably modified; and the only penalty imposed upon a person who has paid too low a fee in the first instance, unless he contumaciously refuses to pay the balance of fee due from him, will be an additional six per cent. simple interest on the balance. A tim

limit of three years has been included, alike in the case where too little and where too much was first paid. The procedure for remission, if too high a fee has been paid, is simplified.

New sections 19H and 19I follow existing sections 19J and 19K with minor alterations.

Existing sections 19B, 19D, 19F and 19G, which are no longer required, are omitted.

Clause 17.—This includes a provision based on section 149 of the Code of Civil Procedure, as it is considered more appropriate to include it in the Court-fees Act than in the Code of Civil Procedure. Section 149 of the Code of Civil Procedure is repealed by the Third Schedule.

Clause 18.—This brings into two sections the rule-making provisions, which are now scattered over seven sections in four different Chapters of the existing Act, namely, sections 14, 20, 21, 22, 23, 27 and 34. Chapter IV and sections 27 and 34 are accordingly repealed.

Additional rule-making powers are accorded in new section 30B with reference to the granting of an allowance for used, damaged or spoiled stamps. Sub-section 3) of this section is based on section 53 of the Indian Stamp Act, 1899.

Clause 19. This extends the powers of Local Governments to reduce or remit fees.

Clauses 20 and 21.—These clauses amongst other alterations substitute for Articles 11 and 12A of the First Schedule of the Court-fees Act, 1870, a new Fourth Schedule dealing with the fees to be paid for Probates, Letters of Administration, and Succession Certificates. The object of these amendments is that there should be a uniform rate of fees for probates, &c., throughout India. It has been brought to the notice of the Government of India that certain difficulties are arising from the different fees now leviable. It is pointed out by the High Court of Calcutta that "in the case of Probate and Administration, it would be advantageous if the rates could be kept uniform throughout India, and it is a matter for consideration whether the Central Legislature might not properly be asked to take measures to ensure such uniformity." Probate in certain cases extends to the whole of India, and it is, therefore, desirable that the rate of fees for probates should be the same throughout India. The provisions of the last paragraph of section 99 of the Probate and Administration Act, 1881, also point to the same conclusion. The provisions contained in the Bill apply the rates in force in Bengal, which rates are also enforced in Bihar and Orissa, and in Assam, to the whole of India, except in the case of Succession Certificates, where the uniform rate proposed will probably secure a less revenue than in the case of the Bengal rate.

The following Bill was introduced in the Legislative Assembly on the 25th March 1924:—

No. 22 OF 1924.

A Bill to validate certain insufficiently and incorrectly stamped instruments.

WHEREAS it is expedient to make provision for validating certain insufficiently and incorrectly stamped instruments; it is hereby enacted as follows:—

Short title,
extent and com-
mencement.

1. (1) This Act may be called the *Invalidating Act, 1924*; (2) It extends to the whole of British India, including British Baluchistan, the Southal Parganas and the Pargana of Spiti; and (3) It shall come into force on the 1st October 1923.

Definitions

2. In this Act, unless there is something repugnant in the subject or context,—

(a) 'the old Act' means the Indian Stamp Act, 1899.

11 of 1899

(b) 'the new Act' means the Indian Stamp (Amendment) Act, 1923.

XLIII of 1923

(c) 'instruments' means promissory notes as defined by section 2 (22) of the old Act and also the documents mentioned in Articles No. 19, No. 36, No. 37 and No. 52 of Schedule I to the old Act.

(d) 'incorrectly stamped' means not stamped with stamps of the proper denomination.

Saving of ins-
truments insuffi-
ciently stamped

3. Notwithstanding the provisions contained in the new Act instruments executed on or before the thirty-first day of December, 1923, and validly stamped in accordance with the provisions of the old Act shall not be invalid or inadmissible in evidence by reason only of their being insufficiently or incorrectly stamped under the new Act.

Rs.

Insufficiently
stamped instru-
ments to be
deemed duly
stamped under
the new Act.

4. The instruments mentioned in section 3 above shall be admitted in evidence for any purpose by any person having by law or consent of parties authority to receive evidence, and shall be acted upon, registered or authenticated by any such person or by any public officer, as if they were duly stamped under the new Act.

STATEMENT OF OBJECTS AND REASONS.

The Indian Stamp (Amendment) Act of 1923 is said to have received the assent of the Governor General on the 1st October 1923. The Act was, however, published in the Gazette of India only on the 6th October and in the Fort Saint George Gazette on the 16th October 1923. It is not stated definitely when the Act comes into operation. Under section 5 (1) of the General Clauses Act, 1897, it would, therefore, come into operation on the day on which it received the assent of the Governor General. Documents executed between the 1st and the 16th October would in all probability have been stamped under

the old Act. A suit to enforce such promissory notes for more than Rs. 250 and executed between these two dates would be unsustainable as the document could not be put in evidence and stamp penalty could not be levied therefor. (*Vide* sections 35, 40 and 41 of the Stamp Act.) Such cases would result in serious hardship, and it is proper that legislative sanction must be given to such documents. It is but reasonable that some time must be allowed to elapse before the public can be expected to become aware of the provisions of the Amending Act. The object of this Bill is, therefore, to validate all such documents executed before the 31st December 1923, provided they are validly stamped under the old Act. Provision is also made in the Bill to validate such documents executed before the 31st December 1923, even if they are not stamped with stamps of the proper denominations as required by the rules made under the Amending Act.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 25th March 1924 :—

No. 24 OF 1924.

A Bill further to amend the Indian Evidence Act, 1872.

WHEREAS it is expedient further to amend the Indian Evidence Act, 1872 ; It is hereby enacted as follows—

Short title and commencement

1. (1) This Act may be called the Indian Evidence (Amendment) Act, 1924.

(2) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint

Amendment of section 68, Act of 1872.

2. To section 68 of the Indian Evidence Act, 1872, the following *Explanation* shall be added, namely :—

“ *Explanation.*—Proof of execution under this section may be presumed to have been made where the attester proves his presence at the execution or the acknowledgment thereof by the executant.”

STATEMENT OF OBJECTS AND REASONS.

In 35 Madras 607 the Privy Council have decided that the word “attested” within the meaning of section 59 of the Transfer of Property Act, means actual seeing of the execution by the attester. Section 68 of the Evidence Act gives the mode of proof to be given of documents that require by law to be attested. The decision of the Privy Council has caused considerable difficulty in administering justice when a party is *ex parte* or admits execution, if the attestors are gained over. A Bill to amend section 114 of the Indian Evidence Act to serve the end in view was opposed by the Government on 21st February 1924 as not suitable and disallowed. But it was commonly felt that a remedy for this state of things was necessary. The previous attempts have not been fruitful also. It is proper that the needed amendment must be made to section 59 of the Transfer of Property Act or section 68 or section 114 of the Indian Evidence Act. It is submitted that though the substantive law may continue as before, the proof needed may be modified so as to give scope for justice being rendered where formal impediments stand in the way. Difficulties have arisen in enforcing documents offered to give property security. The Bill is intended to serve the ends of justice.

The scope and principle of the Bill is to find the suitable amendment. It is noted that in section 59 of the Transfer of Property Act the words used are “the mortgagor and attested”.

SIMLA, THE 6TH MAY 1924.

RESOLUTION—No. S-217.

In their Resolution No. 81-D., dated the 15th November 1919, the Government of India announced their intention to constitute a committee to deal with the proposal made by the India Industrial Commission for the creation of an Indian Stores Department. The terms of reference and personnel of this Committee were announced in Resolution No. B-506-11, dated the 5th December 1919. The Committee were directed to enquire and report on the measures required to enable Government Departments to obtain their requirements as far as possible in India, what central and local agencies should be constituted for the purchase and inspection of such requirements and what modifications of the Stores Purchase Rules would be required to give effect to their recommendations. This Committee submitted its report to the Government of India on the 19th July 1920.

1. The Committee were unable to agree in regard to the modifications which should be made in the Stores Purchase Rules and certain alternative recommendations were offered. After careful consideration of these alternatives the Government of India arrived at certain provisional conclusions, which, together with a revised draft of the Stores Purchase Rules, were sent to the Provincial Governments for their consideration and advice. In the meantime the purchase of stores by Governors' Provinces had ceased, under the reformed constitution, to be a central subject. It was accordingly made clear that the revised rules under consideration were intended for application only to the Government of India and to Provinces other than Governors' Provinces. On receipt of the replies from the Local Governments the revision of the rules was further considered by a Committee of the Legislature (the Railway Industries Committee) which had been appointed in pursuance of a Resolution adopted by the Legislative Assembly on the 2nd March 1922. The rules approved by this Committee were submitted to the Secretary of State for his approval.

2. The Secretary of State in Council has now approved the rules appended to this Resolution, which will henceforth regulate the purchase of stores by all Departments and officers of the Central Government and of the Local Governments and Administrations other than those of the Governors' Provinces. The main features of the new rules consist in the assertion of a more definite preference for stores produced and manufactured, wholly or partly, in India, an important extension of the power to purchase imported stores and the introduction of a central purchasing agency in India, namely, the Indian Stores Department. This Department, as announced on the 10th December 1921, was created on a temporary basis with effect from the 1st January 1922, on which date the Chief Controller of Stores assumed charge of his duties and proceeded to formulate a detailed scheme of organisation. This scheme, after consideration by the Government of India, was submitted to the Secretary of State who has now sanctioned the constitution of the Indian Stores Department on a permanent basis.

3. The revision of the Stores Purchase Rules and the establishment of the Indian Stores Department are the direct outcome of the policy which aims at the encouragement of the industries of the country without sacrificing economy, and the Government of India take this opportunity of impressing upon all Departments and officers purchasing stores the importance which they attach, not only to a strict adherence to the letter of the rules, but also to a loyal observance of the policy underlying them, as stated in the preamble to the rules. The observance of this policy, coupled with utilisation to the fullest possible extent of the services of the Indian Stores Department, will, it is confidently anticipated, promote both the objects which the Government of India have in view, namely, encouragement of manufacture in India and economy in the purchase of Government stores.

ORDER.—Ordered that this Resolution be communicated to all Local Governments and Administrations, the several Departments of the Government of India (including the Financial Adviser, Military Finance), the Private and Military Secretaries to His Excellency the Viceroy, all Heads of Departments subordinate to this Department, the Auditor General and all Accountants General, the Comptroller of Assam, Deputy Accountant General, Central Revenues, Delhi, the Financial Adviser, Posts and Telegraphs, and the Audit Officer, Indian Stores Department.

Ordered also that the Resolution be communicated to the High Commissioner for India and to Chambers of Commerce and that it be published in the Supplement to the *Gazette of India* for general information.

A. H. LEY,

Secretary to the Government of India.

RULES FOR THE SUPPLY OF ARTICLES FOR THE PUBLIC SERVICE.**PREAMBLE.**

The policy of the Government of India is to make their purchases of stores for the public service in such a way as to encourage the industries of the country, so far as is consistent with economy and efficiency. In pursuance of this policy the following rules are prescribed, with the sanction of the Secretary of State, for the supply of articles for the public service. These rules, which are subject to any instructions regarding specific articles which have been or may be made by the Government of India with the sanction of the Secretary of State from time to time (e.g., those relating to the supply of stationery and printing stores for the public service), supersede all previous orders which are not explicitly continued.

The rules are applicable to the Government of India and to provinces other than Governor's Provinces.

RULE 1.—Articles manufactured in India from Indian materials.

All articles which are produced in India in the form of raw material, or are manufactured in India from materials produced in India should, in preference to articles not manufactured in India or wholly or partly manufactured in India from imported materials, be purchased locally, provided that the quality is sufficiently ~~the~~ purpose, and the price reasonable.

Note.—Although a strict comparison of prices is not enjoyed by this rule, it is essential in the interests of economy that the purchasing officer should take into consideration, so far as may be possible, the price at which articles of similar quality not manufactured or produced in India can be purchased at the time.

RULE 2.—Articles manufactured in India from imported materials.

Articles wholly or partly manufactured in India from imported materials should also be purchased in India in preference to articles not manufactured in India, provided that the quality is sufficiently good and the price not unfavourable.

RULE 3.—Articles which are not manufactured in India.

Articles which are not manufactured in India should be obtained by indent upon the Store Department, London, except in the following cases :—

- (a) When the articles are already in India at the time of order or are already on their way out, and their price and quality are not unfavourable as compared with those at which similar articles could be obtained through the Store Department, London, and the cost of the supply does not exceed the limits prescribed in Rule 11. When the total value of the articles required is trifling it is generally desirable to purchase them locally.
- (b) In the case of important construction works let out on contract, articles not manufactured in India required for the construction of such works may be supplied by the contracting firm subject to the following conditions :—
 - (i) That the firm is approved by the Chief Controller of Stores, Indian Stores Department, and is included in the list of firms so approved (List I).
 - (ii) That the materials are subject to the current specifications and tests prescribed by the Government of India.
- (c) Plant and machinery and component parts thereof may be purchased from branches* established in India of manufacturing firms borne on the list of the Chief Controller of Stores, Indian Stores Department (List II), provided that the following conditions are observed :—
 - (i) That the purchase is made by the Chief Controller of Stores, Indian Stores Department, or by a highly qualified engineer directly responsible to the Government of India for the order so placed.
 - (ii) That the plant and machinery are of standard patterns such as are ordinarily manufactured by the firm, and have actually been so manufactured.
 - (iii) That the branch firm entertains a staff of expert mechanics capable when so required, of erecting and repairing the plant and machinery which it supplies.
 - (iv) That the actual price of the articles (exclusive of any expenditure representing cost of erection) is as low as that at which articles of the same make can be supplied by the Store Department, London.

* Branches may be held to cover approved technical agents of manufacturers who do not merely act as selling agents but are also in a position to render the same kind of technical assistance in India as actual branches of the firms.

- (v) That when test or inspection of the plant or machinery during manufacture or before shipment is necessary or desirable arrangements are made for such test and inspection to be carried out by the India Store Department, London.

Note 1.—It should clearly be understood by indenting officers that this rule is subject to the preference which should be given under Rules 1 and 2 to articles of Indian manufacture.

Note 2.—Application for inclusion in the lists mentioned in this rule should be made to the Chief Controller of Stores, Indian Stores Department, direct by the firm with a full statement of the reasons which in its opinion justify such inclusion.

RULE 4.—Articles which should be purchased in India.

The following articles, whether manufactured or produced in India or not, should be purchased in India provided that they comply with the current specifications, are of the requisite quality, and can be obtained at a not unfavourable price :—

(c) Block tin.

(d) ~~Wines~~ and spirits and bottled beer for the use of Government hospitals in India.

(e) Kerosine oil.

(f) Plant and materials for electric installations intended to take current from existing centres ; and small electrical power and lighting plants of not more than 25 kilowatt capacity which involve the provision of generators and cables for distribution, provided they comply with the current specifications and tests prescribed by the Government of India.

(g) Australian timber.

(h) Australian copper.

(i) Italian marble.

(o) Such other classes of articles, that can be obtained more economically in the local market or that cannot conveniently be purchased through the agency of the London Store Department, as may from time to time be prescribed by the Government of India.

RULE 5.—Special purchases in India.

In cases of emergency, or when inconvenience to the public service would be caused by waiting to obtain an article from England through the India Store Department, London, or when, owing to the greater promptitude of supply, an economy can be effected by purchasing in India articles which, under the foregoing rules, should be obtained through that Department, the purchase may be made in India, subject to the limits prescribed in Rule 11, provided that the articles are in India at the time of order or are already on their way out. In such cases, if the value of the articles exceeds Rs. 1,500, the sanctioning officer should place on record the reasons which make the local purchase desirable. This record shall be available for the inspection of the Examiner of Accounts or the supervising officer, when required.

RULE 6.—Inter-departmental purchases.

Nothing in the rules is to be deemed to prohibit the purchase of stores by one department or railway from another.

RULE 7.—Method of obtaining stores not purchased in India.

All articles which, under the foregoing rules, are not to be bought in India, should ordinarily be obtained by indent on the India Store Department, London, except those the

purchase of which outside India is specially authorised by these rules. Such purchase is at present permissible in the case of the following articles :—

- (i) Seeds.
- (ii) Cinchona bark.
- (iii) Articles for experimental or research purposes required by officers approved by the Government of India from time to time. A list of the officers thus approved is given in the Appendix.
- (iv) Excise instruments and apparatus required by Excise Departments for experimental or research purposes.
- (v) China, glass, cutlery, plate, crockery and perishable fabrics, including linen for residences which are furnished by Government.
- (vi) Australian timber.
- (vii) British Columbian timber.
- (viii) Such articles as Superintendents of Vaccine Depôts may require for the preparation of vaccine lymph (*e.g.*, lanoline and glycerine).
- (ix) Chemicals and scientific instruments which do not require careful inspection and testing, or which are of standard description usually quoted by well-known firms, provided that the articles cannot be procured from the Medical Store Depôts.
- (x) Articles required for Viceregal residences in special and urgent cases.

Note.—Payments for stores purchased under this rule should be made direct to the suppliers by the purchasing officers.

RULE 8.—Method of comparing prices.

In all cases in which the selection of source of supply depends upon comparison of prices the procedure to be adopted for such a comparison is as follows :—

- (i) A reference should be made to Home prices notified continually by the India Store Department, London, to the Chief Controller of Stores, Indian Stores Department, or as otherwise ascertained, and freight should be added at the current rates paid by the India Store Department, London, together with such charges for interest, insurance, and freight brokerage as may be declared from time to time by the Chief Controller of Stores.
- (ii) In cases of important contracts, the prices ruling in the English market should be ascertained by telegraphic reference to the India Store Department, London.
- (iii) In cases where the necessary information as to Home prices is not available the purchase in India shall be subject to the condition that the price is reasonable.
- (iv) In order to arrive at the market value at an Indian port of the article imported from England the following charges shall be included :—
 - (a) Landing, wharfage, and port charges.
 - (b) Customs duty as shown in the tariff to be applicable to the article in question, to be calculated on its cost *plus* the additional charges mentioned in the earlier part of this rule.
- (v) The cost of carriage to site from port or place of manufacture, as the case may be, shall be taken into account.

RULE 9.—Tests.

Any articles purchased in India which should be tested are liable to the specifications laid down from time to time by competent authority, with the approval of the Government of India, and should be required to pass the tests prescribed for such articles.

RULE 10.—Firms from which iron and steel may be bought in India.

Important iron and steel work, if purchased in India, should only be obtained from firms approved by the Chief Controller of Stores, Indian Stores Department, and entered in a schedule as corrected from time to time by that officer (List III).

Note 1.—By "important iron or steel work" are meant articles of iron or steel which form important components of the project in hand, e.g., bridge girders and roof trusses, built up in the firm's workshops and supplied ready for erection, in such sections as may be convenient, and rolled steel beams, rails or other sections cut to length or otherwise prepared at the firm's workshops to suit the indenting officer's requirements. The intention of the rule is to ensure that parts, the accurate preparation of which is essential to the security of a project, shall be obtained only from firms which possess workshops and appliances capable of turning out work of the desired standard. The raw materials used may be either imported or of Indian manufacture, subject to the usual specifications.

Note 2.—For the procedure to be followed by firms desiring to be included in the list mentioned in this rule see Note 2 to Rule 3.

RULE 11.—Financial limits on powers of officers to make purchases in India.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1923-24.

(NOTE.—On an average of the five years ending 1921-22, the area under linseed in Bengal has represented some 5·4 per cent. and that under rape and mustard 17·5 per cent. of the total areas under these crops in British India.)

Character of the season.—As indicated in preceding forecasts, the weather was generally favourable at the outset, but subsequently the crop was damaged by a long spell of drought which considerably reduced the outturn in many districts. On the whole the season has been an unfavourable one.

Acresage.—The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 882,500 acres this year as against 905,400 acres last year.

Outturn.—From the District Officer's estimates, the provincial outturn of the different linseed crops works out at 72 per cent. of the normal as against 78 per cent. last year.

Taking 5½ maunds as the normal rate of yield per acre for linseed, 6 maunds for rape and mustard and 4½ maunds for other oilseeds, the total yield for the Province is estimated at 137,800 tons this year as against 153,400 tons last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the *Wheat* Crop of Bengal, 1923-24.

[NOTE.—On an average of the five years ending 1921-22, the area under wheat in Bengal has represented some 0.4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (a) British India, (b) in the territory now reported on has, in the five years ending 1921-22, averaged (a) 44.3, and (b) 13.2 per cent. respectively.]

Character of the Season.—At the time when the third forecast was issued the harvesting of the crop was already begun. The dry weather which continued up to the middle of April was favourable for threshing operation.

Area Sown.—According to the District Officers' estimates, the total area sown amounts to 120,400 acres this year against 121,800 acres last year.

Outturn.—From the district estimates the provincial outturn works out at 62 per cent. of the normal against 75 per cent. last year.

Taking the normal yield to be $8\frac{1}{2}$ maunds per acre, the gross yield of the crop for the Province is estimated at 22,900 tons this year against 28,700 tons last year.

At the end of April, the average wholesale price of wheat at the principal marts of the Province was Rs. 5-5-4 per maund or about 3.03 per cent. and 21.5 per cent. lower than the prices ruled at the corresponding periods of last year and the year preceding respectively. The average wholesale price of common rice at the principal marts, on the other hand was Rs. 5-11-5 or about 0.36 per cent. and 7 per cent. lower than the prices at the corresponding periods of last year and the year preceding, respectively.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for April, 1924.

I. **Character of the season.**—The weather was exceptionally hot and dry till the middle of the month after which precipitation occurred over the greater part of the Province especially in North and East Bengal. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—The rain during the second-half of the month facilitated the cultivation of kharif crops which had been brought to a standstill by drought, and revived the prospects of jute, autumn and deep water paddy, sowings of which had been seriously delayed especially in the low lands of Eastern Bengal.

III. **State of standing crops.**—The condition of standing crops was reported to be fairly satisfactory.

IV. **Prospects and probable outturn.**—The outlook of paddy and jute appears to be promising in Eastern Bengal. Wheat yielded about 62 per cent. of the average.

V. **Damage to standing crops.**—Damage to summer rice and mango crop by hail-storm was reported from Malda.

VI. **Condition of agricultural stock.**—The condition of live-stock was reported to be satisfactory. Sporadic cases of cattle disease were, however, reported from parts of fifteen districts.

VII. **Failure of pasturage and fodder.**—Insufficiency of fodder was not reported from any part of the Province.

VIII. **Prices of food-grains.**—During the second fortnight of the month prices of common rice of the cheapest quality fell in two districts, rose in eleven and remained stationary in the rest of the Presidency. The price ranged from 11 seers per rupee at Rangpur to 9 seers per rupee at Midnapore.

IX. **Condition of agricultural population.**—The condition of the agricultural population was reported to be satisfactory on the whole.

3. Rent-free holders, whether of the degree of raiyat or landlords, shall pay the whole of the landlords' share for their lands.

4. As between the different grades of landlords, the landlords' share shall be apportioned thus :—

(a) permanent tenure-holders whose rent or rate of rent is fixed in perpetuity shall pay their own share of the cost and that of the landlords superior to them.

NOTIFICATION.

No. 6983A.—The 31st May 1924.—The following provisional rules to regulate the recruitment by examination of certain of the provincial and other services in Bengal during 1924 are published for general information. A separate announcement will be

made of the dates and place of the examination. Existing orders regarding the partial recruitment of any of these services by promotion will remain unaffected :—

RULES.

1. **Extent of application.**—These rules apply to the direct recruitment of the Bengal Civil Service, (Executive), the Bengal Excise Service, the Bengal Police Service, the Subordinate Civil Service, Income-tax officers recruited by the Commissioner of Income-tax, Bengal, the Subordinate Excise Service and the Upper Division of the Secretariat Clerical Service.
2. **Method of direct recruitment.**—Direct recruitment for these services will be made on the results of a competitive examination, but Government and the Commissioner of Income-tax, Bengal, reserve the right to appoint by nomination from the list of qualified examinees individual candidates belonging to the backward classes and other minorities if the results of the examination fail to secure the representation of such classes or communities, and in the case of the Upper Division of the Secretariat Clerical Service to fill European and Anglo-Indian vacancies by selection from outside the list. The Commissioner of Income-tax also reserves the right to make appointments by nomination to posts for which special, technical or linguistic qualifications are essential.
3. **Choice of service.**—Each candidate for direct recruitment will be required to specify in his application the service or services for which he desires to compete, placing these in the order of his preference, and the choice thus indicated will be final. Appointments will be assigned to successful competitors with due consideration of their choice and the number of vacancies in the various services.
4. **Communal representation.**—The Examining Board will submit to Government separate lists showing (a) the Muhammadan candidates, (b) candidates belonging to the backward classes and other minorities, and (c) all others; and appointments will be made from these lists in the order of merit of the candidates, provided that the proportion of appointments to be filled by the Muhammadan candidates shall in no case be less than one-third if there are qualified candidates available, and that Government reserve the right to nominate any qualified candidate in list (b). In the Upper Division of the Secretariat Clerical Service, the due proportion of Muhammadans is secured by appointing a Muhammadan to every third vacancy in each office if a qualified candidate is available.
5. **Notification of vacancies.**—The number of appointments to be made to these services will be notified as soon as possible after the 1st July. The examination will be held towards the end of the year.
6. **Application for admission to whom addressed.**—A person desiring to be admitted to the examination shall apply, before such date as the Governor in Council may prescribe, to the head of the College from which he passed his examination for the degree of Bachelor of Arts, Science, Commerce, etc. Candidates who passed the examination as non-collegiate students shall send in their applications to the Registrar, Calcutta University; candidates from Dacca University shall apply to the Registrar, Dacca University. All other candidates (not included in the previously mentioned categories) shall apply to the Director of Public Instruction, Bengal:

Provided that in no case shall a candidate apply to more than one of these authorities, and that such application shall always be made through their Durbars by persons resident in a State in India.
7. **Time and manner of application.**—Applications shall be made, before such date as the Governor in Council may prescribe, in the form shown in Schedule I, copies of which may be obtained from the heads of Colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction.
8. **Application fee.**—Every candidate must submit with his application non-judicial stamps of the value of Rs. 5, or a chalan showing payment into a Government treasury of the sum of Rs. 5. Applications stamped with postage stamps will not be accepted.
9. **Selection Committee.**—The Governor in Council shall appoint a Selection Committee. This Committee shall be composed of officials and non-officials in equal numbers and be presided over by a high officer of Government.
10. **Nomination.**—The heads of Colleges, the Registrars of the Calcutta and Dacca Universities, and the Director of Public Instruction shall forward to the Selection Committee, before such date as the Governor in Council may prescribe, the applications of candidates nominated in accordance with the allotment of nominations shown in

Schedule II and shall certify the moral character of each candidate so nominated. In making these nominations due regard should be paid to the desirability of different classes and communities being represented in the public service.

11. Selection certificates.—In order to make the appraisalment of individual merits of candidates possible, the Selection Committee shall issue certificates of selection to such of the nominated candidates, not exceeding 200 in all, as it considers qualified to appear at the examination. The selection or rejection of a candidate by the Selection Committee shall be final, and no candidate shall be admitted to the examination unless he holds such a certificate :

Provided that in making their choice the Selection Committee shall give all possible consideration to the cases of backward class candidates and other minorities and shall call for further nominations from the heads of Colleges or Commissioners of Divisions if the number of selected Muhammanadan candidates does not reach the proportion of one-third.

12. Conditions of eligibility.—The indispensable qualifications of a candidate are—

- (a) that he is a native of the province or has a permanent domicile within the province ;

14. Eligibility of Government servants.—Unless specially excepted by Government by general or special order, candidates holding substantive appointments in Government service will be debarred from appearing at the examination.

15. Canvassing.—Any attempt on the part of a candidate to enlist support for his application through persons of influence will disqualify him for appointment. Spontaneous recommendations from persons interested in the candidates, or otherwise known to them, will be disregarded.

16. Examination fee and time-table.—Every candidate to whom a certificate of selection has been issued will, within a week from the date of its receipt, deposit in the nearest treasury a sum of Rs. 50 as examination fee and forward the receipt for the same to the Secretary to the Selection Committee. No part of the fee will be returnable to a candidate. Delay in this respect may render his name liable to removal from the list of examinees. On complying with this requirement the candidates will receive from the Secretary a time-table for the examination.

17. Syllabus of examination and marks.—The examination will be held in the subjects and according to the syllabus as shown in Schedule III, which also indicates the numerical value to be attached to each paper at the examination. 18. Medical examination.—As soon as the result of the examination has been declared, successful candidates will be required to appear before a Medical Board for a certificate of their fitness for Government service in the form shown in Schedule IV.

Form of medical certificate for candidates for appointment to the Bengal Civil Service (Executive), the Bengal Excise Service, the Bengal Police Service, the Subordinate Civil Service, the Income Tax Department, the Subordinate Excise Service and the Upper Division of the Secretariat Clerical Service.

The attention of the Medical Board is specially directed to the following:—

No person will be deemed qualified for admission to the service who shall not satisfy Government that he has no disease, constitutional affection or bodily infirmity unfitting him or likely to unfit him for the service. It should be understood that the question of fitness involves the future as well as the present and that one of the main objects of medical examination is to secure continuous effective service, and in the case of candidates for permanent appointment to prevent early pension. It is at the same time to be noted that the question is one of the likelihood of continuous effective service, and that the rejection of a candidate need not be advised on account of the presence of a defect which in only a small proportion of cases is found to interfere with continuous effective service. Before filling up the form it should be ascertained from the candidate whether he has been

previously pronounced unfit for Government service by any duly constituted medical authority in India or elsewhere.

His Excellency the Governor is pleased further to order that the petitioner Babu Kishori Mohan Chaudhuri shall pay Rs. 250 to the respondent Babu Sudarsan Chakrabarti as costs.

A. N. MOBERLY,
Chief Secretary to the Government of Bengal (offg.).

In the Court of the Commissioners appointed under Rule 36 (2) (a) of the Bengal Electoral Rules.

PRESENT :

E. Milsom, Esq., I.C.S.	President.
Banamali Sen, Esq.	Commissioners.
Rai Jadav Chandra Bhattacharyya Bahadur	

Election Case No. 2 of 1924.

Kishori Mohan Chaudhuri	Petitioner
	versus		
Sudarsan Chakrabarti	Respondent.

Report.

This case was fixed for hearing at Dinajpur on the 27th February. On behalf of the petitioner an application was made to the Commissioners on the 13th February 1924.

to take evidence at Rajshahi. All the Commissioners being present at Dinajpur on the 25th February it was decided by them that the parties would be examined at Dinajpur, but that the evidence of the rest of the witnesses should be taken at Rajshahi by Rai Jadav Chandra Bhattacharyya Bahadur, Commissioner, unless that Commissioner decided that any particular witness or witnesses produced before him should be examined before the full commission. The 27th February was fixed for the commencement of the taking of evidence. The Commissioners also ordered further particulars to be furnished. The Commissioner accordingly commenced taking evidence on the 27th February, but on the 28th February the petitioner filed an application for permission to withdraw the petition. The 7th March was fixed for the hearing of the application at Dinajpur and notice thereof was published in the *Calcutta Gazette* of the 5th March. On the case being taken up on the 7th March neither party was personally present and the Commissioners accordingly adjourned the case to the 8th March for their attendance. On that date after hearing the petitioner personally the Commissioners were satisfied that the charges in the petition had been made without any proper enquiry as to the possibility of proving detailed instances of corrupt practices and that even when called upon to put in details before the Commissioners the petitioner was not in a position to do so, or to know if he could adduce satisfactory evidence to establish the charges made. The Commissioners accordingly allowed the withdrawal of the case which in their opinion ought never to have been brought on such inadequate materials and assessed the costs of the respondent at Rs. 250 which the petitioner was directed to pay.

Notice that the withdrawal of the petition had been allowed by the Commissioners was published in the *Calcutta Gazette* of the 12th March; more than fourteen days have elapsed since that publication and no application for substitution under rule 39 (5) (c) having been made the case has been disposed of.

For the reasons given in their report in case No. 1 of 1924 the Commissioners do not include in this formal report the particulars which would have been required had it been a report under rule 45.

E. MILSOM, *President.*

BANAMALI SEN,

JADAV CHANDRA BHATTACHARYYA,

Commissioners.

No. 6992A.—The 31st May 1924.—Whereas the Commissioners appointed under rule 36 (2) (a) of the Bengal Electoral Rules to enquire into the petition presented by Babu Prem Hari Barma against the election of Babu Jogendra Chandra Chakrabarti to the Bengal Legislative Council have reported to His Excellency the Governor that they have permitted the said Babu Prem Hari Barma, after application duly made, to withdraw his petition;

Now, therefore, in accordance with the provisions of rule 45 (3) of the said rules, the following report of the said Commissioners is published for general information.

His Excellency the Governor is pleased further to order that in accordance with the recommendations of the said Commissioners, the petitioner Babu Prem Hari Barma shall pay Rs. 250 to Babu Jogendra Chandra Chakrabarti, respondent No. 1, as costs.

A. N. MOBERLY,

Chief Secretary to the Government of Bengal (offg.).

In the Court of the Commissioners appointed under Rule 36 (2) (a) of the Bengal Electoral Rules.

PRESENT:

E. Milson, Esq., I.C.S.	<i>President.</i>
Banamali Sen, Esq.	} <i>Commissioners.</i>
Rai Jadab Chandra Bhattacharyya Bahadur	

Election Case No. 1 of 1924.

Prem Hari Barman	<i>Petitioner</i>
<i>versus</i>					
1. Jogindra Chandra Chakrabarti	} <i>Respondents.</i>
2. Tanka Nath Choudhuri	

Report.

The petition was fixed for hearing on 25th February. On the application of the Respondent No. 1, the President on the 12th February directed the petitioner, under rule 36 (2) (b) of the Electoral Rules to furnish additional security for Rs. 1,000 within one week. The security was not furnished but on the 18th February the petitioner applied for permission to withdraw. The application was heard by the Commissioners on

25th February and was allowed, the petitioner being directed to pay Rs. 50 as costs to Respondent No. 1, under rule 39 (5) (a). Notice that the application for withdrawal had been allowed was published as required by rule 39 (5) (b) in the *Calcutta Gazette* of the 5th March. More than fourteen days having elapsed since the publication and no application having been made under rule 39 (5) (c), the case has been finally disposed of.

On a consideration of rules 39, 45 and 47 the Commissioners are of opinion that rules 45 and 47 do not apply where a petition is withdrawn with leave of the Commissioners under rule 39; they do not therefore include in this formal report the particulars which would have been required had it been a report, under rule 45.

Notice of the application for withdrawal was not published in the *Calcutta Gazette* as the notice sent for publication did not reach the Press in time to be published in the *Gazette* of 20th February. The Commissioners being of opinion that the provision in rule 39 (3) as to publication of this notice in the *Gazette* was merely directory and not mandatory, that an adjournment of the case for such publication would merely cause an unnecessary increase of the costs of the commission and both parties, and that the publication of the fact of withdrawal under rule 39 (5) (b) would afford ample opportunity to any qualified person to apply for substitution, decided (as all parties to the petition were present at the hearing), to dispose of the application on the dates fixed, dispensing with a formal compliance with the merely directory provision in rule 39 (3).

E. MILSOM, *President*.

PANAMALI SEN,

JADAV CHANDRA BHATTACHARYYA,

Commissioners.
